

TOTS TRAINING® AGENDA

TOTS Training® course, a cutting-edge continuing education program designed for professionals dealing with tethered oral tissues. Participants will learn the E3 Model of Care® which covers the impact of tethered oral tissues on oral function from birth through maturity. The course includes comprehensive lectures, illustrative video and photograph examples, evidence-based research, detailed case studies, and both pre- and post-assessment activities.

TOTS TRAINING® AGENDA

This course is offered for 1.4 ASHA Approved CEUs (Intermediate Level, Professional Area). It is recognized by The American Speech-Language Hearing Association (ASHA). Please make sure to have your ASHA member number available if applicable. Satisfactory completion requires full attendance on both days. For in-person courses, there will be a sign-in and sign-out sheet. For online courses, the CE Assistant Director/Administrator will check usernames at the beginning of each day and periodically throughout each day and link them to the attendance roster. Each attendee who completes the course in full will receive a certificate of completion/attendance.
